

ELITECAD MECHANICS 1

The ideal start with ELITECAD Mechanics for beginners

Using simple 2D examples you will learn how to work with ELITECAD Mechanics, generating 2D drawings and finishing them with all details.

OVERVIEW

Prev. experience: General computer skills. Previous experience in ELITECAD is not required.

Duration: One full day from 9 a.m. to 5 p.m. (incl. 1 hour lunch break)

Equipment: Course documents will be provided for free at the beginning of the workshop. You will work on your own laptop with a free demo version of [ELITECAD ME14](#) pre-installed by yourself. The system requirements are available [here](#). Upon request we can provide a workstation or an additional screen. Please announce if equipment is needed in the registration form.

Organiser: XEOMETRIC GmbH
Hamoderstr. 4 | 4020 Linz | Austria

Other locations upon request: office@xeometric.com

Registration: Please register via the [online form](#)

Price: 390,00 Euro / person plus VAT*

*Due before the workshop. Free cancellation until 5 days before the workshop, otherwise full amount is due.

CONTENT

- ✓ Introduction and workshop overview
